

JOB TITLE: Terminal Shift Lead

ABOUT NARL LOGISTICS

NARL Logistics operates a storage terminal consisting of 8 million barrels of storage and a deep-water ocean jetty. The terminal currently supports a renewable diesel facility immediately adjacent to the terminal and provides storage and distribution services to NARL Marketing for local road, marine, air and home heat fuels.

In support of Canada's Net Zero 2050 goal NARL Logistics' is developing the Terminal into an "Energy Hub". It is our vision that this hub will attract and support green energy projects for local and Global distribution.

NARL is committed to gender equity and diversity in its hiring practices through indigenous and female participation in technical, underrepresented, and managerial roles.

Position Overview

This position plays a key role in Safe and Efficient execution of storage and conveyance activities within the terminal. This is a senior role in which the individual(s) will be tasked with providing operational instruction and monitoring the execution of field activities in to ensure they are completed in accordance with the Company's Risk Acceptance Criteria.

This is a permanent position working 12-hour shift rotation and is located at the NARL Logistics Terminal Facility in Come by Chance. There are 4 positions available to accommodate the shift rotation coverage.

Duties and Responsibilities:

- Ensure workplace risks are evaluated and mitigated for Shift Readiness
- Create and maintain a collaborative relationship with stakeholders (workforce, safety committees, contractors, etc.) on identifying and resolving workplace safety concerns
- Provide authorization for operational and maintenance activities
- Monitor operational functionality of NARL Logistics assets in the tank farm, truck loading rack and jetty
- Report deficiencies of equipment, safety processes, regulatory requirements
- Perform Loading Master duties for incoming/outgoing vessels at the jetty
- Loss control and inventory management
- Assist with development of procedures for conveyance and storage of product at the Terminal
- Escalate any major operational issues such as equipment failure immediately to the NARL Logistics Terminal Manager or appropriate NARL Logistics representative
- Ensure adherence to Health, Safety, & Environmental Management System including policies, procedures, both Federal & Provincial Regulatory Legislation, standards and codes

- Demonstrate a strong commitment to health and safety in the workplace.
- Other duties as required.

Qualifications:

- 2+ years experience working in a Terminal, Truck Loading Facility, Marine Facility or Oil and Gas Industry
- Completion of a mechanical engineering degree or technology diploma, equivalent education and experience may be considered
- Working knowledge of Environmental Legislation
- Keen dedication to Safety
- Strong verbal and written communication skills
- Strong organizational skills and planning abilities
- Basic computer skills

NARL Logistics is committed to Employment Equity. Accommodations during the recruitment process are available upon request for candidates with disabilities.
